

TURK COMPOSITE 2013

COMPOSITE SUMMIT, which has been organized by Turkish Composites Manufacturers Association for the first time in the history of Turkish Composite Sector was held on 3-4-5 October in Pendik. 52 companies from 7 countries participated in the Product Exhibition Showcase Area and the summit welcomed more than 1000 guests from 20 different countries. During the seminar session of the event, 24 presentations from specialists from 5 different countries continued for three days attracting close attention from the visitors, to such an extent that some listened to the presentations on foot. The Most Innovative Composites Products which were exhibited in the event area were evaluated with regard to the criteria such as their importance for our country, their project, design and the originality of their production process and 9 products among the total of 23 was awarded. Those who were granted the award, received their award during the Gala Dinner held at the night of the second day of the event in which more than 120 people in the sector participated. Our Association is proud and joyful after succeeding to welcome the Turkish Composite Sector by means of this event, which is the first summit in the sector.

COMPOSITES SUMMIT
ISTANBUL - OCTOBER 8-10 2015
GORRION HOTEL ISTANBUL

1ST TURKISH AND REGIONAL COMPOSITES INDUSTRY
TECHNOLOGIES AND APPLICATIONS EXHIBITION

Event Date and Location

TURK KOMPOZIT 2015

2nd Turkish and Regional Summit & Forum for Composites,
Technology, Industry and Applications

8-9-10 October 2015

GORRION HOTEL ISTANBUL

Yenibosna Merkez Mahallesi, Sanayii Caddesi No:9

Bahcelievler / Istanbul / Turkey

Tel : +90 212 454 48 00

Fax : + 90 212 454 48 29

www.gorrion.com

How to get there

GORRION HOTEL ISTANBUL is only 5 minutes taxi drive from Istanbul's Ataturk International Airport and 1,5 hours taxi drive from the smaller Sabiha Gokcen International Airport.

Ataturk International Airport is a major airport hub and flights are available to and from all the worlds' major cities.

Who is Organizing?

About Turkish Composites Manufacturers Association (TCMA)

The TCMA is a non profit organization representing raw material, semi-finished, intermediate and finished product producers, suppliers and academic institutions of the Turkish composite industry. The TCMA was established in May 18, 2005. The objectives of the Association are to promote the use of composites in every aspect of life; to conduct activities regarding its introduction, information sharing, standardization and development for the benefit of governmental and local authorities, users, manufacturers and scientific institutions; to make the necessary studies to base the manufacturing and usage of composites on scientific grounds. The ultimate aim is to create synergy by gathering the relevant manufacturers and scientific institutions under one roof to strengthen the composite industry in Turkey.

Why Turkey?

Key Facts and Figures

Diverse Industrial Development

Carbon Fibre Applications
GRP Pipe Applications
Automotive and Transport
Renewable Energy
Marine
Construction and Building
Engineering Plastics

#6 Largest Composites Manufacturer in Europe

At present, the Turkish composite sector has approximately 5,000 employees distributed in 150-200 middle and large-scale companies and 700-800 companies which are partly involved in composite business. The overall annual production is 235 thousand tons.

Fastest Growing Composites Market of Europe

The composite sector's growth rate in Turkey is higher than that of Europe and the rest of the world. Growth rates between 8% and 12% were seen in Turkey in the years before the economic downturn of 2008, during the recovery period the growth rate is between 9% and 10%.

Manufacturing Hub for Global Brands

Turkey is poised to become a manufacturing hub for global brands in the next few years, according to financial reports. Global brands are already looking at Turkey as a manufacturing base for their products, while others are sourcing their requirements from Turkey. The cost advantages of manufacturing in Turkey, particularly in labour intensive sectors, will influence the increasing manufacture of foreign brands in the country.

Steadily Growing Economy

The Turkish economy has shown remarkable performance with its steady growth over the last ten years. The structural reforms, hastened by Turkey's EU accession process, have paved the way for comprehensive changes in a number of areas. As these reforms have strengthened the macroeconomic fundamentals of the country, the economy grew with an average annual real GDP growth rate of 4,9 percent over the past twelve years between 2002 and 2014.

Reasons to do business with Turkey

With a successful economy, high population, qualified and competitive laborforce, liberal and reformist investment climate, infrastructure, central location of the country, energy corridor and terminal of Europe, low taxes and high incentives, customs union with EU since 1996 and large domestic market, Turkey represents an ideal place to centre manufacturing.

What to Expect at TURK KOMPOZIT 2015?

TURK KOMPOZIT 2015 is a composites industry event covering manufacturing, processing and application methods specific to the composite industry.

Events Scope

The event will cover:

Raw Materials (Resins, Fabrics, Thermosets, Thermoplastics, Additives), Semi-finished products, Intermediate products and Finished products, Processing Technologies, Machines, Equipment, Consumables, Construction & Simulation services.

Technical Seminars

Commercial Products and Services

Live Demonstrations

Awards

Visitors

Visitor target groups are Designers, Engineers, Technicians, Buyers, Students, Management of OEMs, Suppliers and Decision makers from the most important composite applications industries.

Industries

Automotive
Aerospace
Building and Construction
Electrical and electronics
Leisure
Marine
Transportation
Wind Energy etc.

Companies

Raw Materials suppliers (Resins, Fabrics, Thermosets, Thermoplastics, Additives)
Manufacturers of Semi-finished products
Manufacturers of Intermediate products
Manufacturers of Finished products
Processing Technologies
Machines
Equipment
Consumables
Simulation services

Why Participate?

To meet local and regional users

- You can reach all leaders of the Turkish composites industries.
- You can make effective sales and purchasing.
- You can establish partnerships for your projects.
- You can initiate effective business relations for a steadily growing market.

Why Visit?

To learn more about the industry

- To find contacts for composite producers.
- To find contacts for raw materials.
- To learn more about technical applications.
- Job opportunities.
